Introduction

The Nursing Profession is the Noblest of all professions and in immense demand globally, offering a highly rewarding career. The Dinsha Patel College of Nursing (DPCN) has a vision to “achieve synergistic union of knowledge, skills and technology, to be a globally responsive and social conscious institute, committed to grooming highly skilled, innovative professionals by applying latest research evaluations, expert guiding force, hands-on training and optimum usage of resources.”

The Dinsha Patel College of Nursing established in the year of 2011, with aim to train dedicated and expert nurses, capable of contributing towards the development of emerging health care systems in public and private health care organizations, as well as community services.

In pursuance of its Action Plan for performance evaluation, assessment and accreditation and quality up-gradation of DPCN , it is proposes that institute should establish an Internal Quality Assurance Cell (IQAC) as a post-accreditation quality sustenance measure. Since quality enhancement is a continuous process, the IQAC will become a part of the institution’s system and work towards realisation of the goals of quality enhancement and sustenance. The prime task of the IQAC is to develop a system for conscious, consistent and catalytic improvement in the overall performance of institutions. For this, during the post-accreditation period, it will channelize all efforts and measures of the institution towards promoting its holistic academic excellence.

The work of the IQAC is the first step towards internalization and institutionalization of quality enhancement initiatives. Its success depends upon the sense of belongingness and participation it can inculcate in all the constituents of the institution. It will not be yet another hierarchical structure or a record-keeping exercise in the institution. It will be a facilitative and participative voluntary system/unit/organ of the institution. It has the potential to become a vehicle for ushering in quality enhancement by working out planned interventionist strategies to remove deficiencies and enhance quality like the “Quality Circles” in industries.

VISION

To make quality the defining element of Nursing education in India through a combination of self and external quality evaluation, promotion and sustenance initiatives.

MISSION
